

## *The Dynamo Award*

The Dynamo Award is given as recognition to managers who have given an outstanding contribution to Mövenpick Hotels & Resorts' European Area. To individuals who get the wheels to spin, who create sustainable business results and energize their team.

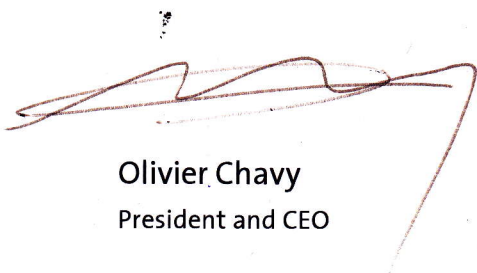

The first award was given in 2014 and Lucie Chmelikova has now been selected for the second Dynamo Award due to her outstanding contribution to Mövenpick Hotels and Resorts (Europe) during 2017/18.

Initially, her high energy level and demands took the hotel teams by surprise. However, within six months, she had taken us all by storm and now; we would at any time give her a standing ovation.

She is leading from the front and setting the pace. Very generously she shares her unlimited revenue knowledge with her colleagues and pro-actively supports their professional development.

Lucie is a great inspiration to our commercial teams and has - like a dynamo - collected and transformed the kinetic energy that earlier was moving around in many directions, into a forceful and successful stream of smart commercial activities.

Mövenpick Hotels & Resorts, April 2018

Olivier Chavy  
President and CEO

Ola Ivarsson  
Chief Operating Officer Europe
